

The fastest, easiest, most functional and cost effective integration with the **RTA Claims Portal** for SolCase® and Visualfiles® users

The RTA Claims Portal went live on April 30th 2010 to streamline and speed up the processing of low cost RTA Claims within the new 15 day time limit. With 500,000 claims per annum expected and over 500 organisations already registered to use the Portal, it is rapidly becoming the preferred approach to processing claims throughout the Industry.

Users of SolCase® and Visualfiles® need to be able to quickly and easily 'plug in' to the Portal to remain competitive in this fast moving market. Whilst the Portal does allow web-based data input, it is a laborious, manual and error prone approach that negates many of the advantages of using the Portal.

RapidRTA from Zylpha, the leading independent solutions provider for SolCase® and Visualfiles® users, provides an automated yet fully customisable out of the box integration solution to process claims rapidly and seamlessly through the Portal, saving you time, effort and cost whilst maximising your profit margins.

- Out of the box ready to use capability
- A system specified and developed in close collaboration with practising industry leading claims experts
- Full exploitation of Portal functionality
- A cost effective and rapidly scalable solution that works the way that you do
- No hidden costs, one low fixed price giving you a rapid return on investment
- A system that is ready to use in 1-2 days
- Full set of screens, scripts, and integration to Solcase® and Visualfiles®
- Commitment to extend the lifetime, ease of use and cost effectiveness of your current Case Management investment.
- 100% support for all Portal functions out of the box.
- A system with a proven track record in both high and low volume operations
- A package which includes everything you need, simple to install and rapidly configurable
- Scalable from single desktop user to global corporate organisations

'We estimate that using the portal with Zylpha's integration is saving us around thirty minutes per claim just at Stage 1 and we are being paid the Stage 1 costs much more rapidly. This has given us a quick return on our investment'

Paul Hinchliffe - Bott & Co
